

# Work Experience Programme

As an established award-winning company, Raw believes that the TV & Film production industry should be a diverse and inclusive place for everyone who wishes to be a part of it. Our Work Experience Programme is aimed at those who are keen to gain new and practical skills, explore the art of storytelling and be a part of a production powerhouse in the factual genre.

We are offering a series of six, paid work experience placements each year. A placement will last for six weeks and will give you the opportunity to fully immerse yourself across several departments, working with and learning from some of the best individuals and (factual) production teams in the industry. By the end of your placement, you will leave with a deeper understanding of the production process, as well as the chance to 'meet' lots of different people across the company, some senior executives and receive informal mentoring and career guidance from your appointed Raw Buddy.

## WHO CAN APPLY?

Raw is committed to discovering, nurturing and championing talent from all backgrounds. Whether you are great with numbers, incredibly organised, brilliantly efficient or have a great way of building and telling a story, a career at Raw beckons. We specifically want to hear from individuals from a sector of the community that is currently underrepresented in the industry. If you are a person from a lower socio-economic background, identify as having a physical or hidden disability and/or are from an ethnic minority – then this programme could well be for you!

Keep an eye on our social media channels, as we will be launching our next application cycle in Spring/Summer 2024.
